

GLOBE Educator Certification

Athanasios T. Theodorakopoulos

successfully completed GLOBE protocol training and is hereby certified as a GLOBE Program Educator.

As such, this educator is qualified to guide participants of The GLOBE Program in the practice of observing GLOBE environmental conditions, performing field and lab protocols, recording GLOBE measurements, reporting data to the GLOBE database, and using GLOBE mapping and graphing utilities to visualize data. These activities will be pursued in the interest of achieving the objectives of The GLOBE Program's mission to promote the teaching and learning of science and the scientific method, enhance environmental literacy and stewardship, promote scientific discovery, and inspire the next generation of global scientists.
